# Alpha Music by John Levine

It is known that music can in fact be manipulated to alter your brainwaves and induce a state of deep relaxation and concentration on demand. Certain sounds trigger the brain to produce alpha waves, which have a slower, more relaxed frequency than the regular beta waves that the brain normally produces. We produce rapid beta waves when we are highly focused, but alpha waves are

slower and longer and are considered to invoke the most receptive learning. John Levine offers you a great range to choose from. Select from various CD's to aid sleep, relaxation, or meditation.

Titles include:

Silence of Peace Vol 1 & 2, Silence of Heart, Silence of Love, Silence of Vision, Silence of Light, Silence

of Balance, Amber, Emerald Forest, Orange Grove Siesta, Spirit, My Little Sea Shell Vol 1 & 2, and Alphamusic at Play.

Please call for a detailed flier.

CD's are \$35.00 each.

# Opal London Body Brushes

**Beautiful environmental brushes, made from sustainable resources.**

Opal London Brushes are renowned leaders in designing and producing the best body brushes for over 25 years. Select Botanicals are proud to be able to offer this great range of body brushes for you and your client's use.

We have available the popular vegan standard sisal body brush range - made of vegetable fibers produced from crushed cactus leaves. This fiber gives an invigorating cleanse and is ideal for dry body brushing and lymphatic drainage treatments.

To see our complete range, please give us a call and we will send you a brochure.

Check out the popular ergoform

detox body brush, a unique brush head with rubber nodules, surrounded with soft natural bristles designed to enable a penetrating stimulation of the epidermis without the scratching associated with firm bristle brushes. Used extensively by professional therapists, the nodules in this exclusive brush give a gentle kick-start to the lymphatic drainage system to ensure it is in perfect condition to cope with the additional work load during detox.

To prepare yourself for the new year detox, Select Botanicals is offering a further 10% off the wholesale price for any purchase of the Detox Body Brush (pictured left) prior to Christmas.

For extra detoxing power - look at the Uspa Spring / Summer Renewal Gift Pack which contains this brush as part of the promo. Happy Detox!

## Carbon Dioxide Concentrates

*What are Co2 extractions?*

Co2 extracts are a sub-critical extraction by liquefied carbon dioxide. The liquid carbon dioxide acts as a solvent on the natural plant matter and the essential oil and other various aromatic plant compounds then dissolves into the liquefied Co2.

The Carbon Dioxide is pressurised until it becomes a liquid. Once the essential oil and other aromatic compounds dissolve into the liquid Co2, the pressure is released and the Co2 simply evaporates back into its gaseous state, leaving and extremely pure extract behind. Unlike steam distillation, Co2 will easily

remove heavier compounds, making the final oil pure, and it represents a total extraction of all aromatic compounds.

Our Otmazka range of concentrates includes Inspirer, Facial, Sport, Happy Ankle, After Waxing, Baby Joy and Joints.
